 Birmingham, AL
 Bachelor of Arts (B.A.)

Clinical Training/Professional Experience

08/2011 – Present: Licensed Psychologist with Psychological Associates, Pensacola, FL

Licensed Psychologist with an emphasis on Clinical Neuropsychology. Providing assessment, consultation, differential diagnosis, and treatment to patients of all ages with various psychological, behavioral, and neurological disorders. Clinical interests include dementia, Alzheimer's disease, Parkinson's disease, ADHD, anxiety disorders, and depression. Available for psychotherapy with individuals of all ages and families from cognitive-behavioral, humanistic, and supportive theoretical modalities. Also affiliated with the University of West Florida Memory Disorder Clinic providing all Clinical Neuropsychological evaluations and assisting in the summary conference follow-up appointments.

03/2013-Present: Approved as ABPP-CN Candidate

Candidate application accepted by American Board of Professional Psychology for specialization in Clinical Neuropsychology.

08/15/2016-08/16/2016 Florida Forensic Examiner Training – Juvenile Justice, Sponsored by the University of South Florida College of Behavioral and Community Sciences and the Department of Mental Health Law and Policy, Tampa, FL

Attended and completed a 2 day intensive training seminar provided by the University of South Florida, College of Behavioral and Community Sciences and Department of Mental Health, Law and Policy. This training is required in order to complete community-based evaluations of juvenile defendants pursuant to the Florida statutes regarding competency to proceed to trial.

09/13/2012-09/15/2012 Florida Forensic Examiner Training, Sponsored by the University of South Florida College of Behavioral and Community Sciences and the Department of Mental Health Law and Policy, St. Petersburg, FL

Attended and completed the 3 day intensive training seminar provided by the University of South Florida College of Behavioral and Community Sciences and Department of Mental Health Law and Policy for legal, clinical and evidence-based training in the principles and practices of forensic evaluation in order to meet the State of Florida's certification requirements for conducting Competency to Proceed and Mental Status at the time of the Offense evaluations for the state of Florida.

07/2009-7/2011 Postdoctoral Fellow in Clinical Neuropsychology, University of Virginia Department of Adult Neurology, Charlottesville, VA

Responsible for clinical interview, administration, scoring, interpretation, report writing, and feedback of fixed and flexible neuropsychological test batteries for adults with various

psychological and neurological disorders with a predominate focus on dementia. Additional responsibilities include working within several multidisciplinary clinics including the Memory Disorders Clinic, James Q. Miller MS Clinic, Movement Disorders Clinic, Neuro-Oncology Clinic, and Huntington's Disease Clinic. Perform pre and post operative assessments for individuals undergoing deep brain stimulator (DBS) placement surgery to treat Parkinson's disease, and assess inpatients to address issues of competency to return to independent living. Provide individual and couples psychotherapy to individuals struggling with neurological and psychological disorders. Assist in the training and supervision of graduate psychology students and psychometricians. Didactic programs include participation in department grand rounds, journal clubs, the neuropsychology seminar series, medical neuroscience courses, and independent study.

Supervised by Kathleen Fuchs, Ph.D., ABPP-CN, Carol Manning, Ph.D., ABPP-CN, and Scott Wiley, Ph.D.

07/2009-07/2011 Blinded Clinical Rater on the ELND005-AD201 Clinical Trial, University of Virginia Neurology, 500 Ray C. Hunt Dr., Charlottesville, VA 22903

Responsible for administration of blinded clinical assessment of Adult Alzheimer's Disease patients enrolled in the United BioSource Corporation clinical trial ELND005-AD201. Certifications for instruments include the Clinical Dementia Rating Scale (CDR) and the Alzheimer's Disease Assessment Scale-Cognitive (ADAS-Cog). Sponsored by United BioSource Coporation.

Principle Investigator: David Geldmacher, M.D.

07/2009-07/2011 Blinded Clinical Rater on the ELN115727-301 Clinical Trial, University of Virginia Neurology, 500 Ray C. Hunt Dr., Charlottesville, VA 22903

Responsible for administration of blinded clinical assessment of Adult Alzheimer's Disease patients enrolled in the United BioSource Corporation clinical trial ELN115727-301. Certifications for instruments include the Disability Assessment for Dementia (DAD) and the Clinical Dementia Rating Scale (CDR). Sponsored by United BioSource Corporation.

Principle Investigator: David Geldmacher, M.D.

07/2009-07/2011 Blinded Clinical Rater on the AAB-001, ELN115727-301 Clinical Trial, University of Virginia Neurology, 500 Ray C. Hunt Dr., Charlottesville, VA 22903

Responsible for blinded clinical assessment for a Phase 3, Multicenter, Randomized, Double-Blind, Placebo-Controlled, Parallel-Group, Efficacy and Safety Trial of Bapineuzumab (AAB-001, ELN115727-301) in Patients with Mild to Moderate Alzheimer's Disease who are Apolipoprotein E4 Non-Carriers. Certifications for instruments include the Clinical Dementia Rating (CDR) and the Disability Assessment for Dementia Scale (DAD). Sponsored by Élan Pharmaceuticals; Wyeth; and, Eli-Lilly.

Principle Investigator: David Geldmacher, M.D.

01/2010-07/2011 Blinded Clinical Rater on the Medivation Clinical Trial, University of Virginia Neurology, 500 Ray C. Hunt Dr., Charlottesville, VA 22903

Responsible for blinded clinical assessment in a Phase 3 Multicenter, Randomized, Placebo-Controlled, Double-Blind Twelve-Month Safety and Efficacy Study Evaluating Dimebon in Patients with Mild-to-Moderate Alzheimer's disease on Donepezil. Certifications for instruments include the Alzheimer's Disease Cooperative Study – Clinical Global Impression of Change (ADCS-CGIC). Sponsored by Medivation.

Principle Investigator: David Geldmacher M.D.

01/2010–07/2011: Blinded Clinical Rater on the Novartis CENA713DUS44 Clinical Trial, University of Virginia Neurology, 500 Ray C. Hunt Dr., Charlottesville, VA 22903

Responsible for the blinded clinical assessment for Novartis Alzheimer's disease study CENA713DUS44. The purpose of this clinical study is to compare the effectiveness of 2 different doses and patch sizes of ENA713D EXELON (rivastigmine) in participants who are at least 50 years old with severe Alzheimer's disease dementia. The study drug is a drug that is being tested and is not approved for sale in the United States by the Food and Drug Administration (FDA). Certifications for instruments includes on the Alzheimer's Disease Cooperative Study – Clinical Global Impression of Change (ADCS-CGIC). Sponsored by Novartis.

Principle Investigator David Geldmacher, M.D.

01/2010-07/2011: Facilitator Parkinson's disease Support Group, Westminster Canterbury, Charlottesville, VA

Responsible for facilitation of a monthly support group meeting for individuals diagnosed with Parkinson's disease. Support group is sponsored by the American Parkinson Disease Association (APDA).

Supervised by Carol Manning, Ph.D., ABPP-CN

07/2008-06/2009 Clinical Psychology Intern, Neuropsychology Rotation, Eastern Virginia Medical School, The Neuropsychology Center, Norfolk, VA

Responsible for the administration, scoring, interpretation and report writing of fixed and flexible neuropsychological test batteries results for outpatient child, adolescent, and adult clients with various psychological and neurological disorders. Duties also include training and supervision of other predoctoral psychology interns and practicum students on advanced interpretation and administration techniques for neuropsychological test batteries.

Supervised by J. D. Ball, Ph.D., ABPP-CL & Michael Stutts, Ph.D.

07/2008-06/2009 Clinical Psychology Intern, Outpatient Psychotherapy Rotation, Eastern Virginia Medical School, Hofheimer Hall Outpatient Therapy Clinic, Norfolk, VA

Responsible for providing weekly individual therapy to adult clients. Duties include intake evaluation, diagnosis and treatment of psychological disorders. Didactic seminar topics include: Pediatric Neuropsychology, MMPI-2 and MMPI-RF, Multicultural Issues, Cognitive-Behavioral Techniques, Adult Neuropsychology, and Forensic Assessment and Evaluation for the courts.

Supervised by Dana Sari, Ph.D.

01/2009-07/2009 Clinical Psychology Intern, Rehabilitation Psychology Rotation, Sentara General Hospital, Eastern Virginia Medical School, Norfolk, VA

Responsible for providing cognitive, psychological, and neuropsychological assessments for patients presenting with a wide variety of rehabilitation needs due to stroke, spinal cord injuries, cancer, traumatic brain injuries, and amputations. As a member of multidisciplinary team, duties also include short-term cognitive-behavioral interventions for patients with anxiety, depression, adjustment problems, pain, and trauma reactions. Psychoeducation for patients and families regarding the effects of medical conditions on daily life, cognitive/emotional changes after injury/accident and trauma resolution. Ongoing consultation and collaboration with an interdisciplinary rehabilitation treatment team, including medical doctors, medical school residents, and case managers, as well as physical, occupational, speech, and recreational therapists. Weekly support/process group for patients in day rehabilitation program.

Supervised by Michael Stutts, Ph.D.

07/2008-12/2008 Clinical Psychology Intern, Forensic Psychology Rotation, Eastern State Hospital, Williamsburg, VA

Responsible for conducting Competency to Stand Trial (CST) and Mental Status at the time of the Offense (MSO) evaluations with inmates from various state prisons and local jails. Responsible for providing restoration to competency services for Jail-Transfer clients previously found to be Incompetent to Stand Trial (IST). Duties include weekly screenings for psychiatric stability and CST requirements, group education regarding courtroom procedures and other legal issues, report writing for the courts and attorneys, risk assessment evaluation, individual and group therapy. Responsible for working as Treatment Team Psychologist for Not Guilty by Reason of Insanity (NGRI) residents. Duties include annual review of commitment for the courts, ongoing risk assessment and management, privilege review for conditional release program, and report writing.

Supervised by Michael Kohn, Ph.D.

10/2008 Basic Forensic Evaluation: Principles and Practice, Institute of Law, Psychiatry, & Public Policy, University of Virginia Health System, Charlottesville, VA

Attended week long intensive training by the University of Virginia's Institute of Law, Psychiatry, and Public Policy for legal, clinical and evidence-based training in the principles and practices of forensic evaluation in order to meet the State of Virginia's certification requirements for conducting Competency to Stand Trial (CST) and Mental Status at the time of the Offense (MSO) evaluations.

08/2006-04/2008 Psychology Trainee, Veteran's Administration Hospital, Miami, FL

Responsible for administration, scoring and interpretation of the Halstead-Russell Neuropsychological Evaluation System- Revised (HRNES-R) to veteran's on an inpatient and outpatient basis. Responsible for supervising and training less experienced practicum students on the administration, scoring, and interpretation of the HRNES-R. Duties also include digital medical chart review, intake interview, and feedback of testing results, report writing, neurology seminars (grand rounds, case conference, etc.), psychology seminars, and data collection for ongoing research.

Supervised by Wiley Mittenberg, Ph.D., ABPP-CN & Carlton Gass, Ph.D., ABAP

06/2005-05/2008 Neuropsychological Test Administrator, Atlantic Health Group, Boca Raton, FL

Responsible for the administration and scoring of fixed and flexible neuropsychological test batteries to outpatients ages 4-89 within a multi-disciplinary, private healthcare group practice. Responsibilities also include administration of fixed and flexible neuropsychological and forensic batteries in state and local detention centers for adults and juveniles.

Assistant to Sharon Theroux, Ph.D., ABPP-CN & Christopher Fichera, Ph.D.

08/2005-01/2007 Psychology Trainee, ADHD Assessment Consultation and Treatment Clinic (AACT), Nova Southeastern University, Fort Lauderdale, FL

Responsible for the intake, assessment, diagnosis, and treatment of cognitive and behavioral disorders of childhood. Duties also include individual, family and group therapy, home observation, school observation, social skills training, parent training, behavior modification, chart review, intake interviews, development of individualized treatment plans, report writing, and didactic presentations.

Supervised by David Reitman, Ph.D.

08/2005-12/2005 Teaching Assistant, Assessment of Intelligence, Nova Southeastern University, Fort Lauderdale, FL

Responsible for the training and correction of student administrations on the Wechsler Adult Intelligence Scale- Third edition (WAIS-III) and Wechsler Intelligence Scale for Children- Fourth Edition (WISC-IV).

Supervised by Wiley Mittenberg, Ph.D., ABPP-CN

08/2004-03/2005 Psychology Trainee, St. Mary's Hospital, West Palm Beach, FL

Responsible for the administration and scoring of a research-oriented neuropsychological test battery to inpatients with acute traumatic brain injury/closed head injury (TBI/CHI) aimed at developing an internalized symptom validity measure from the WAIS-III Similarities subtest.

Supervised by Wiley Mittenberg, Ph.D., ABPP-CN

05/2002-06/2004 Clinical Coordinator, Birmingham Neuropsychology, Brookwood Hospital, Birmingham, AL

Responsible for the recruiting, interviewing, training, and supervising of all clinical and office employees. Responsible for updating and mastering new and revised editions of neuropsychological tests in order to properly supervise and train all employees. Responsible for constructing neuropsychological test batteries for all inpatient consults. Responsible for the maintenance and upkeep of all instruments and protocols. Administering and scoring all neuropsychological tests for inpatients and outpatients ages 4-97. Duties also include travel to four other area hospitals for administration and scoring of inpatient neuropsychological batteries across several different diagnoses and disorders.

Assistant to Richard L. Azrin, Ph.D. & Cheryl Millsaps, Ph.D.

04/2000-04/2002 Neuropsychological Test Administrator, Birmingham Neuropsychology, Brookwood Hospital, Birmingham, AL

Responsible for the administration and scoring of all neuropsychological tests for patients ages 4-97, in both an outpatient and inpatient setting. Duties also include travel to four other local hospitals for administration and scoring of inpatient neuropsychological batteries across several different diagnoses and disorders.

Assistant to Richard Azrin, Ph.D. & Cheryl Millsaps, Ph.D.

Research Experience

05/2015 – Present

Life Complexity as a protective factor against dementia. Pilot study. Development of a Life Complexity Questionnaire for use with clinical and normal samples to correlate with neuropsychological data to examine the protective factors, if any, inherent to the development of dementia.

01/2010 - 2013

Assess the relationship between tremor amplitude and frequency and types of cognitive burden in a PD sample. Bilateral accelerometers fashioned as wristbands are used to gather tremor data as subjects sit with hands relaxed on armrests. A cognitive evaluation will then be conducted using neuropsychological tests ranging in complexity and cognitive demand. Results will help inform clinical practice, as the impact of tremor is often underestimated in clinical settings where only low levels of cognitive provocation are anticipated.

01/2010

Successful defense of doctoral dissertation, “Performance Analysis of the WISC-IV Working Memory and Processing Speed Indexes among ADHD Subtypes”.

07/2009

Certification in use of the Clinical Dementia Rating Scale – sum of boxes (CDR) from the University of Washington.

06/2007-05/2008

Creator and author of AACT clinical database. Responsible for collection of all raw data from terminated client charts and transforming clinical and demographic information into variables for statistical analysis in SPSS. The AACT clinic has only been operating for three years and this database will be the foundation for all future clinical data and research projects.

05/2005-05/2006

Conducted a case-based record review of patients with a diagnosis of ADHD and/or LD who had taken the Wechsler Intelligence Scales for Children-IV (WISC-IV). The results of this record review will be primarily used for this author's dissertation.

08/2004-03/2005

Conducted a research study of patients with acute TBI/CHI testing incidental recall utilizing the Similarities Subtest from the Wechsler Adult Intelligence Scale-III (WAIS-III).

04/2002-06/2002

Conducted a case-based record review of patients with a clinical history of head injury and/or possible malingering who had taken the Wechsler Adult Intelligence Scales-III (WAIS-III) and the Wechsler Memory Scale-III (WMS-III).
