CONSENT FOR TELEHEALTH SERVICES

My signature below indicates that I have read and understand the following:

- Telehealth involves the use of electronic communications to enable professionals to connect with individuals via HIPPA compliant video and audio technology to provide psychological services.
- Telehealth services have potential benefits, including easier access to care and the convenience of receiving services from a private location of my choosing.
- There are potential risks to using telehealth, including interruptions, unauthorized access, and technical difficulties.
- If I am the parent, legal guardian, or caregiver of a minor child receiving telehealth services, I will be in the same building as the minor while receiving telehealth services and will need to be available by phone during the entire session.
- My healthcare provider or I can discontinue telehealth services if it is felt that the video conferencing connections are not adequate for the situation.
- To maintain confidentiality, I will not share, or allow my child to share, my telehealth appointment link with anyone unauthorized to attend the appointment.
- My child and/or I have had a direct conversation with my healthcare provider, during which I had the opportunity to ask questions regarding the procedures and details of telehealth services.
- My questions, and/or my child's questions have been answered and the risks, benefits, and any practical alternatives have been discussed with me in a way that I understand.
- I understand that telehealth is not an emergency service. In the case of an emergency, I will use a phone to call 911.
- I agree to receive psychological services (for myself or my child) via remote means, commonly referred to as telehealth.

Client name (print): _____

Responsible Person Name: _____

Responsible Person Signature: _____ Date: _____

Service Provider's Initials* _____

*Initials indicate that issues of informed consent were verbally reviewed with the client and that client questions were solicited and answered.
